

iPuppet Presents: Colin's Classic Cards

Intro

Colin's Classic Cards lets you play Hearts, Spades, Euchre and Pitch against the computer or with other people online at AspyrWorld. No computer card game gets you closer to the actual experience of sitting around a table and playing cards with old friends. Enjoy!

How to Install

To install, simply drag the folder "Colin's Classic Cards" to your Applications folder, or elsewhere on your hard disk and you should be all set.

To run the game, once copied, open the folder and double-click on Colin's Classic Cards.

Last Minute Info

Window too High

If you run the game under OS X 10.1 with your screen resolution set to 800x600, the game window may be positioned too high. The work around is simply to open your Monitors preference panel, and set your monitor to a new size, and then back to the original. The game will automatically position the window correctly, and remember the correct position from then on.

Minimum System Requirements

MacOS 8.6 through 9.2; MacOS X 10.1 or higher

G3 233 (original iMac) or better

[CarbonLib 1.4](#) or higher

20 MB RAM

250 MB available hard disk space

QuickTime 4.0 or later

An internet connection at 28.8 kbps or faster for online play

Final Note

For the latest information and updates, please visit the Aspyr support center at this link: [Aspyr Support](#)

We have worked as hard as possible to bring you the very best computer card games. We hope you enjoy Colin's Classic Cards.
